

4ZZZ-FM: A History in Pictures

(A work in progress last updated on 21st June 2025)

The photos are presented in roughly chronological order.

1. Jim Beatson, the key founder of 4ZZ/ZZZ-FM. Returning from London in the early 1970s, Jim brought knowledge of the European developments in FM Stereo and alternative radio stations to the Brisbane push for independent media. He became a national player in the lobbying for community broadcasting. When the Whitlam Government decided to offer Australia's first community radio licenses in 1975, the 4ZZ team was ready, and immediately began construction of broadcast studios at St Lucia. Jim is wearing the very rare 4ZZ "Chrome" T-shirt from the very early days. Photo: © Daryl Jones (commercial photographer) from W.A. Jones & Co.

2. Alan "Frank" Knight (RIP), the man Jim Beatson credits as "*the infamous student cynic, political activist, editor of Semper Floreat, journalist, and the person who first proposed starting the radio station which became 4ZZZ.*" Alan was closely involved with the development of the station since the earliest pre-planning stages. Frank used the pseudonym "*the inexplicably suave Duane Flick*" when he hosted the popular Saturday night 4ZZZ Request Show. This portrait photo was used on his press pass.

9. John Woods (RIP) was one of four full-time announcers when 4ZZ went to air on 8 December 1975 as Australia's first STEREO-FM rock-music radio station, and Brisbane's first community station. This was a temporary studio Ross Dannecker set up for test broadcasts located in a room in the Schonell Theatre.

14. Ross Dannecker (RIP), one of the key founders of 4ZZ/ZZZ-FM, and it's first Technical Coordinator. Ross built the station's original transmitter.

15. John Woods (1946–2001) was the first voice heard on 4ZZZ. John was recruited (via a phone interview) from Adelaide where he had been sacked as a presenter on Channel 9 for participating in a Gay Rights demonstration. As well as his professional media experience, John brought to Brisbane his made-for-radio voice, his tireless energy and optimism, and his infectious motto for life, *"If it's worth doing, it's worth overdoing."*

34. Journalists Bruce Dickson and Rob Cameron.

35. Journalists Rob Cameron and Alan Petersen.

36. Journalist Barry Weston at the Royal Exchange Hotel beer garden. Barry was promoted to a full-time journalist at 4ZZZ in August 1976.

37. Steve Gray (promotions), Jim Beatson (station coordinator), John Stanwell (finance / promotions coordinator).
 Steve Gray recalls: *"I've always felt fortunate to have witnessed the establishment and early days of Triple Z - the coming together of a group of remarkably talented people around a common purpose. It was a cultural revolution for Brisbane. It gave me a glimpse at what the creative energy must have been like in the theatres of Elizabethan England, or in Florence at the start of the renaissance."*

38. Clockwise: Helen Hambling, Gay Walsh, Marian Wilkinson, Ashleigh Merritt, Carole Ferrier, and Sue Horton in the broadcast studio.

The notice on the wall reads: "*ZZ ends 31st Jan. ZZZ starts Sunday 1st Feb*" indicating the day the call sign changes from two-letter 4ZZ to three-letter 4ZZZ as required by government broadcasting authorities for newly emerging FM stations. The call sign was changed on Sunday 1st February 1976, just 54 days after the commencement of broadcasting.

44. Phil Cullen (announcer, later station coordinator).

45. Michael Finucan, a legendary 4ZZZ announcer, started as a volunteer. Michael started to be noticed around the station when he began cleaning the kitchen and toilets. This photo may be a self-parody of his earlier initiative. Michael replaced Duane Flick on the Request Show, where he continued the same acerbic tone with the listeners (particularly anyone who requested "Stairway to Heaven").

Jim Beatson says that Stuart Matchett was the person who "more than any other" popularised the idea of a radio station with a radical and satirical bent, that was fun to listen to because of the music it played, with content supported by professional journalists.

4ZZZ staff get Xmas sacking

Radio 4ZZZ, Queensland's pioneer FM broadcaster, has sacked 10 of its 12 full-time staff.

The move 10 days ago — a day before the station's eighth birthday — came because money had run out.

Yet 4ZZZ, which in 1975 became Brisbane's first new radio station in 30 years, continues to broadcast 24 hours a day.

"It takes a bit more than no pay to get rid of us," explains sacked announcer Tony Biggs, 24, who recently was put on the payroll after 18 months as a 4ZZZ volunteer.

"I'd say everyone here will stick it through. In this state I think it's our duty."

Volunteers

The sacked 10 are under no obligation to stay, says the station's administrative co-ordinator Liz Willis, 25, "but commitment is high and the retrenched staff are working normal shifts. They have no other sources of income."

Liz and finance co-ordinator Larry Ponting, 23, are 4ZZZ's more fortunate workers. They will continue to draw a net wage of \$122.95 a week. Last week Larry put in 80 hours. Sometimes it's more.

Like most who join 4ZZZ full time, Liz and Larry began as volunteers. The station relies heavily on its 34 volunteers each of whom work between four and 30 hours a week.

Staff regard 4ZZZ as the only alternative electronic medium in Queensland.

"We won't take sponsorship (advertisements)," says Larry. "We offer an alternative. We can't have anything to do with funding that might restrict us."

Radio 4ZZZ funds come largely from subscriptions and Rock 'n' Roll promotions.

Last year, says Larry, subscribers provided roughly 50 percent of the station's usable income of \$150,000. The employed subscribe at \$30 a year, tertiary students at \$25 and the jobless and school students at \$15.

Last year 10 percent of subscribers were unemployed. This year that percentage jumped to 41 because, says Larry, of subscriber benefits including entertainment and retail store discounts.

While this trend hurt 4ZZZ's bank balance, the station's reduced number of promotions, says Liz, really "lead to the crunch".

"We were able to organise only four Joint Efforts (Rock 'n' Roll gigs) this year, basically because we haven't had the bands to do any better," she says.

No-one at 4ZZZ expects money miracles next year, but plans to ease the pain include involvement in the Commonwealth Employment Program and completion of a recording studio for lease on 4ZZZ premises.

"It would be great to be able to go out and promote ourselves," says Larry, "But we can't even afford to give our stickers away!"

"Obviously," says Liz, "we have to keep promoting local bands and get into other promotions such as films and disc jockeys. People aren't dancing to bands any more. It's all disco."

4ZZZ calls on CJC

SOUTH BRISBANE: Community radio station 4ZZZ will this week lodge a formal complaint with the Criminal Justice Commission (CJC) against police involved in riots at its annual Market Day music festival in Musgrave Park on Saturday.

A 4ZZZ spokesman, Jon Baird, yesterday described police action during the festival, at which police used riot gear and arrested more than 60 people, as "excessive" and "completely unjustified".

Mr Baird said officers ignored a conflict resolution agreement arranged between station staff and West End police and at no stage contacted organisers before moving in with riot gear.

He believed the speed at which riot gear was produced suggested it was a "ready part of a plan by police for use on the day".

"Overall, the spectacle of Queensland police using riot gear and officers on horseback in a densely-packed crowd situation, added to the muddy and wet conditions by a tropical storm, had all the ingredients of a potentially major tragedy for which Queensland police would have been deemed responsible," he said.

Police spokesman Brian Swift said fights broke out when police moved to quell the 5000-7000-strong crowd as it rushed to seek shelter from the rain.

Officers were pelted with cans and other missiles, he said.

"When police began making arrests, the crowd rallied against police and continued to assault officers," Mr Swift said.

"An order was then given to police to disperse the crowd and put a stop to the disturbance. The crowd resisted these attempts and police reinforcements were called."

As police investigations into the incident continued yesterday, Member for South Brisbane Anna Bligh called on police to exercise discretion and restraint at future public events.

"From discussions with 4ZZZ staff and senior police on Monday, it is clear that the whole event could have been better handled," Ms Bligh said.

Meanwhile, Federal Member for Brisbane Arch Bevis has called for a Federal inquiry into the use of military police at the park.

"There are clear demarcation lines in the use of military police and attending rock concerts does not come into their jurisdiction," he said.

A spokesman for Defence Minister Ian McLachlan yesterday said an Army investigation was under way and a report would be made.

As *Southern News* went to press, officers involved in the riots were attending a debriefing session.
