This year's Hot 100 saw the gradual elimination of many previously long-standing songs.

Almost 50% of songs were new to the Hot 100.

We had considerably fewer entries this year, thus enabling songs to make it into the Hot 100 on relatively few votes, So if you value the Hot 100 soutcome, get a well thought out entry in next time.

next time.

In comparison to previous Hot 100's, both Australian and local content was high. As an added bonus to you subscribers we compiled the 'Top 30 Bands' from the Hot 100 voting, as well as the announcers' (full-timers and volunteers) favourite 20 albums that were released and obtained by us in 1983.

#### COMMENT

COMMENT

Browsing through the Hot 100 entries this year, I began to wonder how people listened to the radio as far as the music aspect goes. Commercial Top 40 and to usually indicates to me that its Top 40 method to usually indicates to me that its one to the properties of the prop

to fleat it again ... and ... and

mind.
Yet how many people are happy to say 'I
don't care. Just play 'Release the Bat' another
ten times'. Oh well, happy new discoveries.

## STATION: news & views

NOT ANOTHER
WHINGING PLEA FOR MONEY . . . .

whinging plea For Money.

... because you people have already subscribed. (Thanks — if you are not a subscriber, why are you reading 'Radio Times'?)
As you no doubt have heard, ZZZ is broke (again). The finances got to the point where we had to retrench the full-time staff, leaving only employ people by late January.

Why are we broke? Well, ZZZ dervices most of its income from subscriptions and promotions. The number of subscribers has stayed constant at approximately 2700, but the rate of numployed subscriptions has risen from 10% in 1982 to 41% in 1983, as a result, even with complex of the promotions area, while Amyls Night-rior subscriptions has hardly Bien.

In the promotions area, while Amyls Night-space has brought constant, but small income, the real problem has been the lack of Joint Effort (most cases we need lesser degree, other large size venues have opened lesser degree.

rlasing activities. (Expenses have increased by approximately 10%. The only expense area not to increase in 1983 wayages!

The station is constantly looking for new ways to improve our financial position. Unfortunately, there is no simple solution. The most obvious area is subscriptions. Only 5% (approx.) of our listeners are subscribers. There is, we estimate, about 5,000 listeners who don't subscribe.

estimate, about 5,000 listeners who don't sub-scribe. So, instead of another whinging plea for money, a whinging plea for help to get those 5,000 free-loaders to subscribe. So, if you know somebody who doesn't subscribe, please hassle them — we need their money to survive. See you at the Radiothon.

Coming from Sydney it took a long time to slot in/understand the station, its place in Brisbane and Queensland itself — am still puzzled, but know now I'm not the only one. As a workplace 4ZZZ would be unique. 13 full-time overworked employees and leads of overworked volunteers together in a Collecture to keep 102.1 on the airwaves. how impose the property of the property of the most progressive and adventurous contemporary music stations in Australia — considering the resource limitations, the on-air sound at present can be a treat to the ears, stay tuned and remember at FM-102 you're on a different member at FM-102 you're on a different member at FM-102 you're on a different members.

and remember at FM-102 you're on a different wavelength.

'The way its always been' as a reason to keep things that way is no longer valid — behind the airwaves and beyond the studio there are big changes. Lots of very new and recent staff — an almost new baby Zed is on its way up, so don't let the kid starner — subscribe — it's your don't let the kid starner — subscribe — it's your but \$5\$-station is what we need to keep transmitting to you on the frequency of 102.1.

Brisbane'd be blank without it.
